Whether you intend to play this as a single player or with friends, surely, you would have a great time.. It was Id Software's follow-up to their genre-defining Wolfenstein 3D This was the first game to popularize multiplayer for this genre.. Since its release, the licensing for 3D engines has become an important business branch of the PC industry.. You watch as your friends are quickly slaughtered and you wonder how they made it out of boot camp.. The engine can simulate different heights and lighting conditions (hope you're not afraid of the dark)..
